

The cheap solution as a pressure chamber or autoclave

Your advantages

- Easy to use
- Mobile and robust construction
- Practically wear-free and easy to clean
- Optical level control through viewing window
- Integrated vacuum generation possible
- pivoting device for the doors possible
- Measurement and Control Technology possible (scale, pressure, heating)
- Custom configuration

Technical specifications

Material	Steel (Standard) / Aluminium (lightweight)
operating pressure	-1 bar up to 8 bar
Connections (freely selectable)	Hose Size 8 / 10 / 12 mm
Connection Compressed air	Coupling plug DN 7,2
Connection Vacuum	Hose Size 8 / 10 / 12 mm

Options

Diameter	150 / 200 / 250 / 300 / 350 mm or bigger
Version	Aluminium (4 bar) or steel (8 bar)
Base	Without/ machine feet / rolls
Colour	Green / customer request
Connections	Count / Size / Position
Level control	Viewing window / Weighting-System
Vacuum generation	External / Integrated
Tempering	Water bath / Heating plate
Pressure control	Manually / Automatic
Access	pivoting device / second door
