

The easy solution for the RTM-Light-Process

Your advantages

- Easy to use
- Mobile and robust construction
- Practically wear-free and easy to clean
- Reproducible production
- No power connection necessary
- Optical level control through viewing window
- Cooling or Heating possible (Water bath / Heating plate)
- Integrated vacuum generation possible
- Measurement and Control Technology possible (scale, pressure, heating)
- Custom configuration

Technical specifications

Max. Container diameter	350 mm
Max. Container height	350 mm
Operating pressure	-1 bar up to 8 bar
Connections (freely selectable)	Hose size 8 / 10 / 12 / 15 mm
Connection Compressed air	Coupling plug DN 7,2
Connection vacuum pump	Hose size 8 / 10 / 12 mm

Options

Diameter	150 / 200 / 250 / 300 / 350 mm or bigger
Version	Aluminium (4 bar) or steel (8 bar)
Base	machine feet / rolls
Colour	Green / customer request
Connections	Count / Size / Position
Level control	Viewing window / Weighting-System
Vacuum generation	External / Integrated
Tempering	Water bath / Heating plate
Pressure control	Manually / Automatic
